** and ***

25X1

25X1 * [redacted] Comment. A Major Pechkov (fnu) of [redacted] Frankfurt/Oder is reported for the first time. 25X1

25X1 ** [redacted] assigned to the 57th Gds Tank Regt of the 7th Gds Mecz Div in Frankfurt/Oder. Elements of the regiment possibly were training at Lieberose in mid-February 1952. [redacted] the OATB of the unidentified bomber regiment at Bernau. [redacted] trade agency of the SSC in Land Brandenburg. [redacted] confirms an unidentified AAA regiment of the 324 (?) AAA Div in Frankfurt/Oder until 10 March 1952. Components of the division from Frankfurt were loaded on 13 March 1952, and vehicles of the division were observed at the Lustrow AAA range between 14 and 16 March 1952. [redacted]. The other [redacted] were commented on in [redacted] 25X1

25X1 *** [redacted] Comment. The report covers 50 percent of the period of observation of [redacted]. No shipments have been reported twice between 12 February and 5 March 1952 in the present or reference report. The report shows that 462 cars were handled at the Frankfurt/Oder marshaling yard between 12 February and 17 March 1952. On the assumption that the flow of traffic was at an even rate throughout the day, this would result in about 1,400 cars handled during the stated period, or a daily average of 40 cars. The present report indicates that the total of daily supply shipments, including the zonal and interzonal supply traffic, handled at the Frankfurt/Oder railroad station averaged about 75 cars in February 1952. This figure seems credible, as the daily average of cars used for supply shipments from the U.S.S.R., as observed at the Frankfurt/Oder border station, was 34 cars in February 1952.
